

City of Long Beach

Rebuilding Stronger, Smarter Safer

PORT AMBROSE – The Countdown Begins

Liberty Natural Gas, LLC has submitted an application to the United States Maritime Administration for a Deep-water Port License to construct and operate a Liquefied Natural Gas (LNG) import facility approximately 17 nautical miles southeast of Jones Beach, NY. The City Council has expressed our **unanimous opposition** to the construction of the LNG deep water port, Port Ambrose.

This project has strong implications for the City of Long Beach and has raised concerns for the City Council.

Please join the City Council and Take Action!

- The construction of an LNG import facility (with potential to export) would negatively affect the Long Beach ecology, safety/security, economy and the quality of life of our residents.
- Long Beach is still rebuilding from Superstorm Sandy with many residents not back in their homes and businesses struggling to remain open.
- Long Beach is also without a Hospital which causes health and safety concerns.
- Port Ambrose is seen as an additional burden during the recovery process.
